SANY

For challenging tasks, you need a first-class partner

Quality comes from experience. And from new ideas. This is why we combine these two crucial factors at SANY. This is because we are one of the world's leading producers, having sold more than **250 000** excavators in **10 years**. This means that you can always rely on sophisticated products that have been tried and tested in practice. An impressive **5–7%** of our annual turnover is dedicated to research and development. This is why we give you not only our word, but also our extraordinary **five-year warranty** as a guarantee of how powerful and robust our products are.

5.3 km/h

PROFITABILITY FOR THE NEXT GENERATION

How can we pack maximum working power into the smallest possible space? It's quite simple: With our sophisticated SANY compact excavator concept, and the SY155U short-tail-swing excavator is the jewel in the crown. Its compact dimensions and resulting short slewing radius allow it to work even in extremely tight spaces with no reduction in performance. It doesn't shy

away from difficult tasks. It performs them with the help of its powerful drive and fully developed hydraulic system. The substantial machine weight and wide, stable undercarriage ensure secure stability. It boasts the best features for a variety of tasks and achieves exemplary productivity.

TOP PROPERTIES

ECONOMY

LESS IS MORE

Outstanding performance with low energy consumption – the efficient high-performance unit makes it possible. The smart auto-throttle function combines the best fuel efficiency with high power output. For the machine, this means not only lower fuel consumption, fewer exhaust emissions and reduced wear, but also enhanced driver comfort thanks to reduced engine noise and load relief due to automatic idling mode.

QUALITY

Stable foundation – For those who value durability and stability, the HD chassis is essential. You are covered with the SY155U, because the HD undercarriage comes as standard.

DIMENSIONS

Performs in the tightest spaces – The powerful short-tail-swing machine with short overhang radius enables working even in tight spaces, where conventional machines would not be suitable.

USER EXPERIENCE

Ergonomic design and enhanced user experience – The wide opening engine bonnet and clear, central arrangement of the key components make routine tasks such as maintenance and servicing simple and quick.

SAFETY

Protection for both people and the machine – From its stable, non-slip hand rails to its large mirrors and its camera, the safety package ensures that your construction site runs safely every day.

COMPONENTS

Thoroughly reliable – The quality and consequently the stability of the boom is a particular priority for SANY. The topside and underside of the SY155U are also manufactured from one continuous metal sheet.

ECONOMY

Efficiency and power – The smart control system adapts the pump capacity to the available engine power for greater performance and reduced fuel consumption. This boosts profitability on every construction site.

SY155U

ECONOMY

Performance plus flexibility: The efficiency formula for intelligent minds

Those who now wish to work cost-efficiently on construction sites should avoid achieving performance at the expense of high energy consumption. Therefore, SANY has developed its compact excavator with efficiency as the highest priority. With the SY155U, you will benefit from an exemplary price-performance ratio, an efficient use of fuel and minimal maintenance costs with long maintenance intervals.

Absolute reliability – for peace of mind!

SANY's five-year warranty* gives you the assurance that you can fully count on your equipment.

* With participating partners

QUALITY

PRECISION GUARANTEES ROBUSTNESS

Durability and robustness are standard features on all SANY excavators. The welded seams, for instance, are done by robots with a high degree of precision. This guarantees maximum load-bearing capacity and a long service life. Yet another advantage: All access panels parts are made exclusively from metal – perfect for the harsh everyday conditions on the construction site.

USER EXPERIENCE

THE DRIVER'S CAB – WELCOME TO THE COMFORT ZONE

Safe, easy entry, plenty of room and full visibility outside – the driver's cab leaves nothing to be desired. The driver can also enjoy a comfortable, fully adjustable air-suspension seat, ergonomic controls and a modern audio system.

The automatic climate control and powerful ventilation and heating ensure that the temperature and fresh air levels in the cab are always perfect.

Our highlights – the added benefits SANY offers you:

- + Reinforced chassis
- + Comfortable air-suspension seat
- + Compact short-tail-swing machine
- + Clear instruments
- + Large, high-resolution display
- + High safety standards, e.g. camera
- + ROPS/FOPS-certified for safety in operation

USER EXPERIENCE

Trust your instincts

The intuitive operation of all excavator functions via the joystick control makes optimum performance achievable with precision. The ergonomic shape of the joystick ensures that it sits comfortably in your hand and allows precise handling. The two auxiliary control circuits already come as part of the standard equipment and allow operation of various attachment devices such as tilt buckets or grapples. Both of these proportional control functions are operated smoothly via the sliders in the joysticks.

USER EXPERIENCE

Intelligent solutions for quick maintenance

The SY155U's maintenance-friendly concept is based on simplicity. The engine bonnet is easy to open, which makes all components needed for regular checks and maintenance easily accessible. The filter, radiator and battery are arranged centrally and can therefore be accessed easily and quickly. Particularly long oil change intervals also help keep downtimes to a minimum.

USER EXPERIENCE

Always optimally configured

A monitor with a high-resolution display shows all important data at a glance. The menu navigation is extremely user-friendly and enables the driver to manage machine functions safely and comfortably. The camera image can also be shown on the display if required.

The next inspection due and basic data such as torque and oil and cooling water temperatures are also displayed. Various attachment devices can also be easily changed at the touch of a button within the programme.

By pressing a button you can easily choose the operating mode that best suits the task at hand. The smart SANY drive control takes care of the rest. It always adjusts the engine and hydraulic power precisely to your requirements.

ENGINE

| | |
|-------------------|--|
| Model | ISUZU 4JJ1X |
| Typ | Water-cooled, 4 cylinder, with commonrail and Adblue |
| Exhaust emissions | Stage V |
| Rated power | 78.5 kW / 1 900 rpm |
| Max. torque | 375 Nm / 1 800 rpm |
| Displacement | 2 999 ccm |
| Batteries | 2 x 12V / 120 Ah |

SERVICE REFILL CAPACITIES

| | |
|--------------------|--------|
| Fuel tank | 210 l |
| Engine coolant | 23.6 l |
| Engine oil | 15 l |
| Drive (per side) | 1.8 l |
| Adblue | 20 l |
| Hydraulic oil tank | 110 l |

PERFORMANCE

| | |
|--------------------------|------------------------------|
| Swingspeed | 12.5 rpm |
| Max. travel speed | High 5.3 km/h, slow 3.1 km/h |
| Max. travel force | 114 kN |
| Gradeability | 35° |
| Bucket capacity | 0.6 m ³ |
| Groundpressure | 0.41 kg/cm ² |
| Bucket digging force ISO | 103 kN |
| Arm digging force ISO | 67 kN |

OPERATING MASS

| | |
|-------------------------|-----------|
| SY155U | 16 000 kg |
| SY155U weight w/o blade | 15 350 kg |

RELIEF VALVE SETTINGS

| | |
|-------------------|---------|
| Implement circuit | 343 bar |
| Swing circuit | 250 bar |
| Travel circuit | 343 bar |
| Pilot pressure | 39 bar |

HYDRAULIC SYSTEM

| | |
|----------------------|---|
| Mainpump | 2 x variable-piston-pump with electronic positive control |
| Max. oilflow | 2 x 110 l/min |
| Max. oilflow (AUX 1) | 110 l/min |
| Max. oilflow (AUX 2) | 70 l/min |
| Travelmotor | Variable displacement axial piston motor |
| Swingmotor | Axial piston motor |

UNDER AND UPPER STRUCTURE

| | |
|-----------------|--|
| Boom length | 4 600 mm |
| Arm length | 2 500 mm |
| Bottomrollers | 7 |
| Toprollers | 1 |
| Rotation device | Planetary gear reducer driven by an axial piston motor, automatic hydraulic released slewing brake |

DIMENSIONS (TRANSPORT)

| | |
|--------------------------------|----------|
| A Transport length | 7 300 mm |
| B Transport width | 2 590 mm |
| C Upperstructure carriage | 2 490 mm |
| D Height over cabin/ROPS | 2 820 mm |
| E Height of Boom – transport | 2 755 mm |
| F Overall length of crawler | 3 665 mm |
| G Tail length | 1 500 mm |
| H Track gauge | 1 990 mm |
| I Undercarriage width (blade) | 2 590 mm |
| J Horizontal distance to blade | 2 650 mm |
| K Blade height | 480 mm |
| L Track height | 815 mm |
| M Track pads width | 600 mm |
| N Min. ground clearance | 425 mm |
| O Counterweigh clearance | 910 mm |
| P Engine cover height | 1 418 mm |
| Q Tail swing radius | 1 500 mm |
| R Center distance of tumbler | 2 930 mm |

LIFTING CAPACITIES OF LOWER AND UPPER DOZER BLADE

A SERVICE YOU CAN RELY ON

Just as we do with our excavators, we also demand high quality and reliability of our service products. This underlines our equipment's performance in terms of their durability and their excellent price-performance ratio. After all, maintenance is crucial

for efficiency, cost-effectiveness and safety. Your SANY dealer is happy to help you with a comprehensive range of services to ensure that your machine continues operating efficiently in the long term.

SANY – flexible, fast and always there for you

Rapid assistance, tailored advice and a reliable supply of original parts – that is what we mean by a premium service.

The added benefits SANY offers you:

- Fast supply thanks to the central warehouse near Cologne
- More than 15,000 spare parts to make your machine highly reliable
- Expert knowledge for optimal supply for your machine
- Thanks to SANY's special training programme, our dealers are always kept up-to-date so that they can face all technical challenges.

Parts supply – quick and reliable

With the purchase of a SANY compact excavator you have made an investment in the future. Fast availability of spare parts is your guarantee of minimal downtimes and failure times.

Detailed information in black and white

Handbooks and documents are available for all SANY compact excavators, and these can help you with operation, maintenance, servicing and repairs. These include operating and maintenance instructions and technical specifications.

COMPACT PRODUCTIVITY

The SY155U short-tail-swing excavator shows what it's capable of, even in confined areas. The compact design with short slewing radius allows for powerful operation even in tight spaces. And thanks to its manoeuvrability, you can easily access areas not possible with other machines of its type.

STABLE FOUNDATION

HD undercarriage as standard: You can rely on the enhanced control of the idler to guarantee a **long service life**, even with the toughest applications. The powerful ISUZU-AR-4JJ1XASC engine with **AdBlue emission control is part of this.**

PERFORMS IN THE TIGHTEST OF SPACES

Experience **compact mobility** with this short-tail-swing machine. Perfect for working in places where space is limited, for example in inner-city areas.

ERGONOMIC DESIGN AND ENHANCED USER EXPERIENCE

From the **air-suspension seat** to the large **storage compartments** – the driver's cab was built for comfort.

PROTECTION FOR PEOPLE AND MACHINES

Safety valves are essential for safety on the construction site, not only when lifting loads but also when moving earth masses – so naturally, they are provided as **standard** with the SY155U.

THOROUGHLY RELIABLE

Continuous sheet metal on the topside and underside of the boom and **particularly precise, robot-controlled welded seams** underpin our quality standards for the toughest requirements.

EFFICIENCY AND POWER

Low energy consumption levels are a characteristic feature of the SY155U. The **smart hydraulic system** ensures the highest possible fuel efficiency, fewer exhaust emissions and **reduced wear.**

TECHNICAL HIGHLIGHTS

| | |
|-------------------|---|
| Engine | ISUZU 4JJ1X |
| Rated power | 78.5 kW / 1 900 rpm |
| Max. torque | 375 Nm / 1 800 rpm |
| Max. travel speed | 5.3 km/h |
| Swingspeed | 12.5 rpm |
| Mainpump | 2 x variable-piston-pump with electronic positive control |
| Max. oilflow | 2 x 110 l/min |

„THE MACHINE IS ECONOMICAL AND POWERFUL!“

Stefan Welsch – machine operator TDS Immo
